DETAILED ACTION

Allowable

1. **Claim(s) 1-12** are allowed.

2. The following is an examiner's statement of reasons for allowance:

Regarding **claim(s) 1, 4, 7 and 10**, the prior art of record fails to disclose or specifically teach registering a terminal to an issued common service number by a phone number management terminal, which sends a confirmation of the registration to the registration unit. This registration of a terminal differs from the registration of a user for a service as taught by Matthews's prior art. Furthermore the prior art fails to teach a two modes for delivering the message left by a registered terminal: first mode, sending the message directly to the other registered terminal and the second mode, storing the message in the message management unit and sending a message notification to the other registered terminal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
